Subject: Re: FS Comments - West Lake Landfill

Dave,

I've created a tentative agenda for the September 22 meeting with EPA R7 comments being discussed first. I'd like to start with the B&V / PE comments, so this discussion would probably start around 10:15AM, once we've gotten everyone settled and done some introductions. Of the comments you have provided on the SFS, the ones I'd most like to discuss during this meeting are Comments 1, 5, 8, 11, 17, 39, 40, 41, 46, 48, 52 and 61. We can get into some of the other General and Specific comments as time allows. I don't anticipate bringing up any of the Administrative comments, or any of the comments provided by PE on Appendix F (Risk Assessment) since the PE risk assessor didn't find any major concerns with the risk assessment methodology.

Sincerely,
Daniel R. Gravatt, PG

Subject: FS Comments - West Lake Landfill

Good morning Dan.

Attached are our comments on the Draft Feasibility Study Report for the West Lake Landfill. Personnel from Professional Environmental Engineers who reviewed the document and provided the comments will be available for the September 22 meeting to discuss the comments via teleconference. As we discussed, if you can let us know the approximate time that our comments will be discussed, we would participate in the conference only during the time that our comments were discussed. If you have any questions, please contact me. Thanks.
